**Big Island Grown Dispensaries Opening Hilo Medical Cannabis Location in January**

(Pepeekeo, Hawaii Island – January 14, 2019) – Big Island Grown Dispensaries, one of two medical cannabis companies on the Big Island, announced today they will open their Hilo location January 16, 2019. In honor of the grand opening and as a thank you to the community, they will offer discounted patient appreciation pricing while supplies last.

“We would like to thank the Big Island community for their patience as we built our facilities and developed our company to grow clean, reliable, lab-tested cannabis medicine that is of the highest quality,” said Dylan Shropshire, Chief Executive Officer. “We have over 100 unique strains and phenotypes that we will be rolling out over the next year along with a large diversity of high-quality concentrates and manufactured products.

Our “mix and match” ounce program will enable patients to introduce themselves to new strains at an affordable price by picking up to eight unique strains for the price of an ounce. We plan on always pricing affordably and providing patients with the best in store experience possible. We want to showcase to our patients and community what they already know; Big Island Grown cannabis medicine is some of the best in the world” said Shropshire.

The first location will open on January 16 in the Lehua Center in Hilo. The second location will open soon after in January in the Malama Pono Center in Waimea. The final location is targeted to open at the end of the month in the Brewers Block in Kona. All patients and caregivers will be required to show a valid government ID and valid 329 card to gain entry.

Hilo (opening January 16, 2019): 750 Kanoiehua Ave., Suite 104, Hilo, HI 96720

Opening hours of operation: 11am-7pm, 7 days (Closed All State & Federal Holidays)
